

CHECKING THE STATUS OF A TROTWOOD REFUND

The City of Trotwood must complete your refund within 90 days from when the refund request was filed or the return was due, whichever is greater. Please do not contact our office until you have not received your check and it has been 90 days from the date you remitted your refund request. Please note: The refund will not be considered until all documentation is completed. The 90 day statute does not begin until after all required documentation is remitted and the return is complete. Also, a refund will not be processed until all delinquency on an account is brought up to date.
